Dear Professor Carhart

I should say  
that Mr. Briggs had  
better apply for a  
scholarship - If he  
should do so, his  
chances of getting a  
fellowship (say with  
six months) would  
be much better.

With your

Recommendation I should  
make it my business  
to take a personal interest  
in the young man, and  
if his work warrants it -  
would endorse his  
application for fellowship.

Very sincerely yours  
C. A. Michelson
